

Meet Michelle Goering

MICHELLE GOERING has been writing all her life, but only for fun and her own mental health until recently. A poet, essayist, singer, and guitarist, with a professional background in publishing, she specializes in Creative Nonfiction, Memoir and Poetry. Michelle is married and the mother of twin college-aged sons. An enthusiastic San Diegan, Michelle grew up on a Kansas farm and still misses

aspects of rural life. She is interested in building community across all boundaries and is a member of the Baha'i Faith.

Michelle is currently busy writing, revising, and sending pieces out, and when they're rejected, polishing a little more and sending them out again to someone else! Also putting together a collection of memoir pieces for possible self-publishing.
